Superintendent's Corner

Dear Families,

A very productive school year is drawing to a close. Before we launch into summer break, it is fitting to take a moment or two to reflect on our accomplishments. First, I want to recognize each and every staff member for the dedication, talent, energy and care you bring to school each day. Educating our students for a successful future is important and influential work. We continue to focus on improvement and finding ways to leverage our resources—people, time, dollars and relationships—toward boosting success for students and creating the system of strong and excellent schools of which our community can be justifiably proud. Together, we are making a visible difference for our students, families and community.

Due to the joint efforts of staff and community, Sacaton Elementary School District experienced an extraordinary 2017-2018 school year as you will note when you read all of this year's accomplishments on pages 2 and 3 of this newsletter. We look forward to seeing everyone at our upcoming promotion as we celebrate our 8th graders' accomplishments and next steps in their personal journey towards excellence.

When positive education is provided to students, they have opportunities to learn how to become independent decision makers who take responsibility for their own lives and their communities. Sacaton students are motivated and responsible learners who maintain positive relationships with each other, the staff, and the surrounding community.

I greatly anticipate the future of our schools and I look forward to leading more initiatives for the benefit of all students and the community. Have an incredible summer spending time with your child(ren). We look forward to all of the new opportunities that next year will bring ~ YES!

Two Schools, One Voice. We are Sacaton Braves. YES!

Mrs. Cherryl Paul, Superintendent

Middle School O'otham Himthag Thash (Native American Studies) -May 3rd and 4th

Governing Board Monthly Meeting—May 8th at 5:30 pm

Elementary School O'otham Himthag Thash (Native American Studies) -May 10th and 11th

Summer School Hours: The District office will be open Monday-Thursday from 8:00 am to 4:00 pm, beginning June 4th through July 20th, 2018. **The District office will be closed on Fridays.**

PRESS RELEASE

Pinal County School Superintendent Jill Broussard has decided not to appoint a Governing Board member to the vacant seat on the Sacaton Elementary School Board. The seat will remain vacant until the election in November, 2018.

If anyone is interested in running for the Sacaton Elementary School Governing Board in the November, 2018 election, please contact Brenda Katterman at the Pinal County School Office for an election packet at 520.866.6565 or visit our website at www.pinalesa.org to download a copy.

Band Competition

On Saturday April 7th, 2018, the Sacaton Braves Concert Band attended the Pageant of Bands at Deer Valley High School and competed against seven other elementary and middle school groups. The bands were adjudicated by three judges, who categorized the groups with either gold, silver, bronze or a participation rating. At the end of the performance, judges gave the group a master class with suggestions for improvement. This was Sacaton's first band competition and they received a bronze rating!

What is Bullying?

According to the SEDS Student Rights and Responsibilities Handbook, the definition of bullying is "repeated acts over time that involve a real or perceived imbalance of power with the more powerful child or group attacking those who are less powerful. Bullying can be physical in form, verbal, or psychological. Cyber-bullying includes bullying through the misuse of technology."

Although acts of name calling, threats, or physical contact are not acceptable behavior, they may not fit the definition of bullying if it happens during a single and/or isolated incident. Please keep in mind that bullying behavior occurs repeatedly over time. Regardless, always notify an adult immediately if either type of behavior occurs so it can be resolved by school district staff. When adults respond quickly and consistently to inappropriate behavior, they send the message that it is not acceptable.

Parents, school staff, and other adults in the community can help kids prevent bullying by talking about it, building a safe school environment, and creating a community-wide bullying prevention strategy.

SESD Preschool: The Faces of our Future! YES!

Our preschool program is currently participating in the Quality First evaluation process. This has been a very exciting time for our staff. Our Quality First evaluator randomly selects preschool sessions to conduct observations and uses a rating scale with multiple indicators. Once the entire evaluation process is completed, the results will be received and reviewed by preschool staff. This evaluation will identify areas of strength and areas to target for professional development. This will help our preschool staff identify a goal for the upcoming school year.

We continue to be at the highest enrollment that the Sacaton School District preschool program has seen! We truly believe that our children are our future and ensuring that they have an excellent beginning is our mission! YES!

Providing EXCEPTIONAL student services: The mission of the ESS staff!

As we close out the year and look towards the 2018-19 school year, the ESS staff will be reviewing program structures, staff needs, student needs, and master schedules to ensure that all of our needs are being met. We want to ensure that students have access to appropriate services to make progress in the least restrictive environment. We will be working with the site administration to ensure that the master schedules align with our students' needs and all ESS staff have access to the full array of district curriculum. We want to ensure that the school environment is inclusive of all of our students, which in turn, will promote greater learning. We are all in this TOGETHER!

Head Lice

Parents are the key for prevention and treatment of head lice.

- A. Spend 15 minutes once a week looking for head lice or nits. Set a day and time aside to carefully look.
- B. Teach your child not to share hats, scarves, brushes, combs and hair fasteners.
- C. If you see nits or lice within ¼ inch of the scalp, then treat your child.
- D. Follow 14-day treatment plan and mark your calendar to help you keep track.
- E. If after 14-day treatment crawling lice are still present, contact your healthcare provider.

New Registration Processes Are Coming!

Sacaton Elementary School District is currently working on revising the registration process for new and returning students. This is a joint effort between the elementary school and the middle school secretaries and district staff. We are revising our paperwork and processes to best meet the needs of our district and parents, but still remain compliant with required documentation and information. We are hoping that our new process will streamline the registration process for new students and do away with redundant paperwork for returning families. We will be rolling out our new forms for the 2018-19 school year soon. Families will be using our new forms and process during the summer for newly enrolling students/families. We also plan to combine the enrollment process with our Meet the Teacher activities that will occur in August. If you need any information regarding enrolling your child, please feel free to call the district/school offices.

Culture and Language Program

The month of May is Kai Cu:klig Mashath and is also known as Pilkin Baithag Mashath (ripping of the wheat month). Students will learn about the Pilkan harvest with our Tohono O'otham relatives, and will also learn how important it is to honor Je'e on Je'e Thash (Mother's Day). Students will then reflect on the importance of Memorial Day.

Our theme for the month is on desert animals. Students will learn about the common insects and animals that we see around our homes at this time of the year including the pesky va:mug (mosquito). We will also learn about the monsoon season. Students will draw pictures of elements associated with the monsoon including the Jegos (dust storm). In addition, they will be informed of the O'otham New Year celebration in June and also the picking of the has:shan baithag, or cactus fruit.

The number one song in O'otham during our classes this month was "Head, Shoulders, Knees, and Toes," followed by a close second, "Itsy Bitsy Spider." Preschool and kindergarten students enjoyed singing "Ring Around the Rosie" in O'otham.

We all had a fun and exciting school year, and so much was learned by both students and staff! We are looking forward to next school year. Thank you Mrs. Martin for assisting in the Culture Classroom. Have a safe and restful summer! Thova epom nei (We shall see you again). Sapo.

Our Community Orchard Update

On April 19th 3TV (KTVK) on-air personality Dave the Garden Guy made two live television broadcasts appearances featuring our Community Orchard. He interviewed students and teacher Mr. Alberto Alaniz. During the broadcast, many individuals and organizations were recognized, including the Gila River Indian

Community for providing the funds via the Tribal Allocation Grant for the purchase of the 144 trees. The Community Orchard Project couldn't have happened without the support and blessing of the SESD Governing Board, Superintendent Paul, and Principal Bonds. Under their leadership and vision, the Community Orchard is now complete and will be maintained by the students in the future. The varieties have been expanded to include Fig, Blood Orange, and Blood Grapefruit trees. The state-of-the-art Solar Irrigation System ensures adequate water distribution. This system was installed with support from our vendor partner Ewing Irrigation and Supply. The tree supplier, Greenfield Citrus, did a wonderful job in establishing and preparing for the replanting. Community members are invited to visit the orchard at any time, and will ultimately be able pick fruit from the trees. Please check out the videos of the live broadcast below.

Tailored Technology Report

Augmented Reality is the adding of graphics, sounds and/or touch feedback into our natural world to create an enhanced user experience. Augmented Reality is unlike Virtual Reality. Virtual Reality requires you to inhabit an entirely virtual environment. An example of a virtual reality environment is "Second Life". AR uses your existing natural environment and simply overlays virtual information on top of it. Applications of AR can be as simple as a string of text or as complicated as an instruction on how to perform a life-saving surgical procedure. AR can highlight certain features (a painting in a museum), enhance understanding (a physics experiment) and/or provide accessible and timely data (digital games like Pokémon Go). In the classroom, Augmented Reality apps can run on a multitude of different devices and platforms such as Chromebooks, iPads and smart phones.

Teachers are constantly challenged to find ways to keep students' attention in the classroom when their outside world is full of all kinds of highly compelling and visually stimulating media. In today's world it isn't the television set that captures a child's fancy rather it's YouTube, Snapchat or Instagram. Augmented Reality is a great way of engaging our students and at the same time allow learning to occur.

Student Recognition

Gila River Indian Community Lieutenant Governor Robert Stone showed his support at April's regular Governing Board Meeting as he shook hands of students being recognized for their efforts and achievements! Go Braves!

STEAM Day Activities

32 seventh grade students attended STEAM Day activities on April 13 at Chandler-Gilbert Community College. The students were invited to take part in several classes that included **Science, Technology, Engineering, Arts and Math**. After beginning the event playing several games (Foosball, Connect Four, ping pong), students took part in science experiments, coding exercises, making pottery, and several math games. Sacaton Middle School was one of three schools in attendance.

Poetry Helps Support Literacy

April is National Poetry Month. Reading and writing poems helps support literacy and enhances language acquisition and supports writing skills. The following list outlines why children should write, listen to, and create poetry:

- Develops understanding and perceptions about the world
- Find unusual connections between things
- Develops creative expression and to frame thoughts, feelings, and ideas
- Learn to listen and appreciate the ideas of others
- Learn to share ideas and hear feedback
- Develops a wide vocabulary

Listening to poetry also helps children become fluent readers and creative writers, while writing poetry helps children learn to revise their ideas and develop a precision with language. Learning a collection of poems gives children and adults shared memories, a shared heritage, and shared understandings.

The Sacaton School District #18 Governing Board, Administration, and Staff wish the following 8th grade students the very best as they continue their educational journey into high school and beyond!
