

# **Wildlife and Ecosystems Management Program (WEMP)**

**The Gila River Indian Community is home to an abundance of diverse wildlife which can sometimes lead to unwanted encounters. For sick, injured or displaced wildlife call  
(520) 562-2767**

**WEMP works to prevent human-wildlife conflicts but encourages residents to help by following the tips below to reduce negative interactions:**

- **Avoid leaving pet food outside**
- **Do not handle or feed wild animals**
- **Keep woodpiles and clutter to a minimum**
- **Securely bag food waste and use sealed garbage bins**
- **Seal openings where animals could enter your home**
- **Contact the WEMP for nest removal; many species are protected under the Migratory Bird Act**
