

# Weather Outlook

## Keeping your home safe during rainfall:

- Cut or trim low-hanging tree limbs that pose the danger of falling during rain and windstorms.
- Inspect your home surroundings for drainage issues.
- Secure outside furniture, garbage cans and any other property that can move during strong wind.
- Avoid flooded roadways. Turn Around. Don't Drown! Just six inches of fast-moving water can knock you down, and one foot of moving water can sweep your vehicle away.
- Watch for fallen power lines and trees. Report them immediately.
- Check on members who may require special assistance, such as infants, children and the elderly or disabled

## STEER CLEAR *of* FLOODED ROADS

- Never drive on flooded roads – almost half of flood deaths happen in vehicles.
- 6 inches of water is enough to cause you to lose control of your vehicle.
- If you encounter flood waters on a roadway, Turn Around, Don't Drown®.
